

**Badminton Triple Top-Up** is an

ideal way to provide calories for

endurance horses – especially

Arabs – as fat contains over twice

the calories of cereal carbohydrates. Based on quality soya with

added coconut oil and high levels of vitamin , the inclusion of

fats, in the correct ratio to carbohydrates, will ensure maximum

staying power and long-term stamina. **For more details, call**

**Tested by:** *Horse&Rider* reader, Dougie Cursons

“Our car gets filthy from trips to the yard, but this blasted all the dirt off easily – I was surprised at how good the pressure is. It also did a good job on my bike after I went out for a muddy ride with my girlfriend and her horse, and the adjustable nozzle settings mean it’s even gentle enough to use on your horse!”
