*- don't leave them all behind
when you go to a show*

Have you ever got to your destination and discovered you have forgotten something, found space is of a premium or that staying in your lorry is simply uncomfortable? The tireless Inharness team has selected for you a few products to ease the stress of being away from home comforts - for horses and humans.

Nomad Cordless Pressure Washer 18 V

This is the perfect companion for drivers at home and away. It's great for horses - wash off the sweat and mud after a competition, rinse his legs before presentation judging or hose the carriage clean after a muddy marathon then clean the inside of your lorry after travelling.

The water tank, pump and power supply are all in one neat pack with a carrying handle and strap and it's quiet when you use it so it doesn't scare the horses. There's a fine spray option for the delicate areas and you use less water than you would with a bucket and sponges. The Nomad 18 V holds about 14 litres and provides 30 minutes' continuous use - enough water for two dirty horses and power for about six. There are no wires so it's ideal to use around horses and when you are away from powerpoints. The tank is easily removed for re-filling and it has a filter to prevent unwanted objects getting into it. There is a spare battery built in and this is quick and easy to change over. Remember to charge the batteries when you get home.

Don't ever leave home without the Nomad: it's great and the Inharness testers have no idea how they coped before it existed.

The 18-volt model is £179.99 from www.nomad-direct.co.uk with a £10 discount offer when you quote the code IHMN18V when you place an order. Delivery is free. Nomad also have a 12-volt model, 12 V, which is powered from your car or lorry, £119.99.

Gelert XL Sleeping Pod

This sleeping pod offers unrestricted body movement. The unique shape, only available from Gelert, means you can curl up and turn over inside the bag and sleep in any position you like. It looks great in the new colours and packs down for easy storage. It's so comfortable, no restrictions - it's just like sleeping at home. About £54.99 Contact www.gelert.com for stockists.

Horse In Distress Safety Magnet

This is a magnetic sign, below, that attaches to the side of your horsebox or trailer when you are at an event clearly showing your name and a mobile number to ring in case of an emergency. If your horse becomes distressed and you are not immediately available, your details are easily visible so you can be contacted quickly. We think it's a great idea and a really useful item: everyone should have one on board. £6.50 from www.theshowground.com plus £1 delivery - or we have eight to give away!
